

# Why choose CSI to supply **ancillaries** for your clinical trial?

Clinical Services International is proud to offer reliable and comprehensive ancillary services to support our client's clinical trials, maximising supply chain efficiency and cost-effectiveness at every stage of the process.

We have 60 warehouses around the world dedicated to fulfilling your trial's ancillary requirements.

## Sourcing options

CSI offers a hybrid sourcing strategy, organising both the rental and purchasing of medical devices:

- **Purchase** - for studies running for more than one year.
- **Rental** - for studies running for 3, 6 or 12 months

With your study protocol in hand, we can advise the most suitable sourcing strategy for your clinical trial.

## Lab kit production and distribution

CSI can provide lab kits bespoke to your study. Our global depot network and logistical expertise allow us to manage the production and distribution process on your behalf, ensuring all kits arrive simultaneously.

## Our return process

Upon completion of the trial, we offer destruction of materials with a destruction certificate included.

## Regular shipment & inventory reports

CSI provides regular shipment and inventory reports, enabling you to check the status of your clinical supplies as required.

## Your single point for resupply

CSI's ancillary services are designed to make the procurement and distribution of materials for clinical trials as efficient and effective as possible.

## CSI offers comprehensive ancillary solutions, including, but not limited to:

### Medical equipment:

- Electrocardiogram (ECG) monitors
- Spirometers
- Weighing scales
- Blood pressure monitors
- Infusion pumps
- Cooled or uncooled centrifuges

### Technological supporting equipment:

- eDiaries
- Mobile devices
- Laptops
- Printers
- Pill splitters
- Refrigerators
- Freezers with temperatures ranging from -20°C to -80°C

### Print materials:

- Investigator site files
- Pharmacy binders
- Patient recruitment material

We deliver our print materials across six continents

## The CSI ancillary strategy

Our strong global network allows us to supply ancillary services reliably to even the most difficult-to-reach locations.

We continuously strive to provide our clients with a dependable and seamless experience, assisting you at every stage of distribution.

### We leverage our clinical trial supply experience by:

- Closely monitoring expiration dates and storage conditions for all inventory and regularly tracking serial numbers
- Distributing supplies to multiple sites simultaneously within the agreed timeframe
- Adhering to global standards, such as the Good Distribution Practice (GDP)

## Significant cost savings for our clients, including:

- Up to **60%** on initial shipments
- Up to **40%** on resupply shipments
- Up to **60%** on broker fees (custom clearance)

### A broad spectrum of ancillary supplies

CSI offers a vast inventory of essential ancillary supplies that can be delivered to your clinical trial in a timely and hassle-free manner.
